

# CYBER SECURITY AWARENESS MONTH

*This October, National Cybersecurity Awareness Month (NCSAM) commemorates 15 years as an annual initiative to raise awareness about the importance of cybersecurity. NCSAM 2018 is a collaborative effort between government and industry to ensure every American has the resources they need to stay safer and more secure online, while increasing the resilience of the nation during cyber-threats. The U.S. Department of Homeland Security (DHS) is the federal, national lead for NCSAM. DHS also co-leads NCSAM with the National Cyber Security Alliance (NCSA).*
